

EQUIPMENT PARTS / SPARES

EQUIPMENT PARTS / SPARES

THERMAX OFFERS SPECIAL HIGH QUALITY SPARES TO ENHANCE EQUIPMENT UPTIME:

FEATURES:

- Inadequate spares inventory plan often leads to downtime of equipment for need of spares
- Planning spares procurement and maintaining inventory of essential critical spares is as important as operating and maintaining the equipment
- In absence of availability of right quality spares both the equipment and plant production is at risk
- The loss of a batch of production can be many times more than the cost of the spare part itself

THERMAX GENUINE SPARE ENSURE:

- High Quality
- Reduced risk of parts failure leading to monetary loss, plant downtime
- Assurance of correct specifications
- Guaranteed performance
- Thermax Support

ALL THERMAX SPARES COME WITH 'THERMAX GENUINE SPARE HOLOGRAM'
