

C&H SERVICES SBU

Expert Services as & when required

■ What is SmartServe?

SmartServe is a specialized services provided for re-commissioning, pressure part repair, efficiency performance trials, for boilers & heaters. SmartServe means customer can reduce repetitive breakdowns and analyze root cause in failures and avail fastest response.

Re-commissioning services

Restarting / re-commissioning of old / retrofitted boilers & heaters in shortest possible time.

Efficiency & Performance Services

- Efficiency trials of boilers / heaters as per BS845-Part I
- Statistical analysis of boiler operating parameters and remedial action.

Breakdown Services

Expertise support during breakdown for analyzing and starting equipments like boiler / heaters

Pressure Part Repair Services

- Critical failure repairs for boilers / heaters in minimum shutdown time
- Certified professional team to carry out on site repairs
- Use of proven procedure and method statements for repairs
- We carry out repairs confirming to IBR / ISO R831 / ASME / BS / GOST codes

Failure analysis

Root cause elimination helps to prevent any future accidents / operational hazards. Study for root cause analysis consists of the following :

- Visual analysis
- Chemical analysis
- Microstructure analysis
- Scale analysis
- Thickness measurement

Masonry Services

- Refractory failure analysis
- Refractory rebuilding services

Benefits of SmartServe

- Professional & dedicated service team spread across
- Services available when needed and at door step
- Domain knowledge & Experience of 40 years
- Root cause identification & elimination
- Training to operation & maintenance team
- Services that one can rely upon
- High equipment uptime
