CORPORATE PROFITS ROSE 15% to touch an all-time high in the September quarter as margins widened on softer input costs and better utilistaion levgrowth. els, the research arm of rating agency Crisil said on Monday.

From an absolute perspective, the Ebitda touched an alltime high of $\gtrless 1.60$ lakh crore in the September quarter, as against ₹1.02 lakh crore in the preceding June quarter, it said.

The trend of companies' profits growing even as the economy contracts as a result of the pandemic has led some watchers to express concern,

claiming that this is illustrative of widening inequalities. Crisil, which analysed a sample of 800 listed entities comprising 85% of NSE's market April-June quarter.

Aggregate operating profit margins improved by over 1% despite a rise in raw material cost during the quarter, it said. From an employee costs perspective, which is leading to the

concerns, it said 370 manufacturing firms in its sample showed a contraction of 4%, while the same for service sector reported a "moderate growth". The growth in profits came

even as the revenues did not go up, the report said, pointing out that the topline was "stable" in Q2 as compared to the year-ago period after falling 29% in the

"India's role in the global Covid-19 vaccine rollout will be significant both as a recipient of the medicine as well as a producer," Fitch said in a report. as polio and cholera," it said. India's vaccine rollout will

begin in first quarter of 2021 (January to March), with frontline healthcare workers and individuals over the age of 50 years gaining priority.

Fitch said the government aims to vaccinate 25 crore people over six-to-eight months, which is "a lofty goal". "However, if India can quickly ramp up vaccinations to roughly the same level as the one million (10 lakh) tests it conducts each day, then we expect coverage across priority groups can be achieved by June 2021,"it said.

Our Company has disclosed the information about its Group Companies in the Information Memorandum dated December 21, 2020. For details, please refer the section "Our Group Companies" beginning on page 72 of the Information Memorandum.

14. INTERNAL RISK FACTORS

The Company was incorporated on March 27, 2019 and there

The global impact of the COVID-19 pandemic has been rapidly evolving and public health officials and governmental authorities have responded by taking measures, including in India where our operations are primarily based, such as prohibiting people from assembling in large numbers, instituting quarantines, restricting travel, issuing "stay-at-home" orders and restricting the types of businesses that may continue to operate, among many others. On March 14, 2020, India declared COVID-19 as a "notified disaster" and imposed a nationwide lockdown beginning March 25, 2020. The lockdown remains in force in many regions, with limited and progressive relaxations being granted for movement of goods and people in other places and cautious re-opening of businesses and offices. However, in case the lockdown is reintroduced, it could result in subdued growth or give rise to a recessionary economic scenario, in India and globally, which could adversely affect our business, prospects, results of operations and financial conditions.

Our plant operations were impacted since March 25, 2020. However, we restarted our operations with effect from May 21, 2020 in compliance with the regulatory norms. Our Company is into B2B segment and our prime products are used in industry engaged in paint, printing ink, epoxy hardener, soap etc. While COVID-19 has directly affected our business and operations, there is significant uncertainty regarding the duration and impact of the COVID-19 pandemic, as well as possible future responses, which makes it impossible for us to predict with certainty the impact that COVID-19 will have on us and our customers at this time.

Further, as COVID-19 may adversely affect our business and results of operations, it may also have the effect of exacerbating many of the other risks described in the "Risk Factors" section beginning on page 13 of the Information Memorandum.

able to achieve the increased levels of revenue commensurate with the increased levels of operating expenses associated with this growth. Any failure on Company's part to scale up its infrastructure 15. and management to meet the challenges of rapid growth could cause disruptions to its business and could be detrimental to its longterm business prospects. The products manufactured by the Company find application in various industries. The growth rate in these industries is crucial for our Company's growth. The major demand for its products arises primarily due to the growth of these user industries. Any downward trend in any of these industries can affect our Company s turnover and profitability.

Our success depends in large part upon our management team and key personnel and our ability to attract, train and retain 16. such persons.

Our ability to sustain our rate of growth depends significantly upon our ability to manage key issues such as selecting and retaining key operations personnel, developing managerial experience to address emerging challenges and ensuring a high standard of client service. In order to be successful, we must attract, train, motivate and retain highly skilled employees. If we are unable to hire additional qualified personnel or retain them, our ability to expand our business will be impaired and our revenue could decline. We 17. may face issues integrating employees from the Demerged Undertaking into our Company. We will need to recruit new employees, who will have to be trained and integrated into our operations. We will also have to train existing employees to adhere properly to internal controls and risk management procedures. Failure to train and motivate our employees properly may result in an increase in employee attrition rates, divert management resources 18. and subject us to incurring additional human resource related expenditure. Our inability to attract and retain talented professionals, or the resignation or loss of key operations personnel, may have an adverse impact on our business and future financial performance.

OUTSTANDING LITIGATIONS AND DEFAULTS OF THE TRANSFEREE ENTITY, PROMOTERS, DIRECTORS OF ANY OF THE GROUP COMPANIES

In accordance with SEBI ICDR Regulations, our Company has disclosed the outstanding litigations and defaults of our Company, its Subsidiaries, Promoters, Directors and Group Companies in the Information Memorandum dated December 21, 2020. For details, please refer the section "Outstanding Litigations and Material Developments" beginning on page 78 of the Information Memorandum.

REGULATORY ACTION, IF ANY - DISCIPLINARY ACTION TAKEN BY SEBI OR STOCK EXCHANGES AGAINST OUR PROMOTERS IN LAST 5 FINANCIAL YEARS

There are no regulatory proceedings or disciplinary actions, taken by SEBI or stock exchanges against our Promoters in the last five financial years including any outstanding action. For details, please refer the section "Outstanding Litigations and Material Developments" beginning on page 78 of the Information Memorandum.

may be certain uncertainties in the integration of the Demerged undertaking into a newly incorporated entity, such as our Company.

The Company was incorporated on March 27, 2019 and commenced business from the Effective Date of the Scheme which provided for iii the transfer of the Demerged Undertaking to us as a going concern. Accordingly, there may also be certain uncertainties in the integration of the Demerged Undertaking into a newly incorporated entity such as our Company. While post the Effective Date, all the employees, including experienced personnel in the Demerged Undertaking have been transferred to the Company, the Company may be unable to effectively integrate the Demerged Undertaking, and efficiently operate the consequent business of the Company, thereby adversely impacting the results of the Company's operations and profitability of the business. Additionally, consequent upon completion of the Scheme, Privi Speciality Chemicals Limited (formerly known as Fairchem Speciality Limited) is required to effect transfer of, inter alia, properties, approvals, employees, existing contracts and intellectual property of the Demerged Undertaking to our Company. Inability to effect all such transfers in a timely manner may materially impact the ability of the Company to carry on and undertake business operations, in compliance with applicable laws.

The corona virus disease (COVID-19) has had an adverse effect on our business and operations and the extent to which it may continue to do so in the future, is uncertain and cannot be predicted.

In the first half of calendar year 2020, COVID -19 spread to a majority of countries across the world, including India. The COVID-19 pandemic has had, and may continue to have, significant repercussions across local, national and global economies and financial markets. In particular, a number of governments and organizations have revised GDP growth forecasts for calendar year 2020 downward in response to the economic slowdown caused by the spread of COVID-19, and it is possible that the COVID-19 pandemic will cause a prolonged global economic crisis or recession.

Our Company's business is dependent on its manufacturing facility. The loss of or shutdown of operations at our manufacturing facility may have a material adverse effect on its business, financial condition and results of operations.

Our manufacturing facility is situated at 253/P and 312, Village Chekhala, Sanand - Kadi Highway, Taluka Sanand, District Ahmedabad - 382 115, Gujarat. This manufacturing facility is subject to operating risks, such as the breakdown or failure of equipment, power supply, performance below expected levels of output or efficiency, obsolescence, labour disputes, strikes, lockouts, continued availability of services of the external contractors, earthquakes and other natural disasters, industrial accidents and the need to comply with the directives of relevant government authorities.

In the event of shutdown of operations at our manufacturing facility due to the factors mentioned above may adversely affect our business, financial condition and results of operations.

Our Company's inability to manage growth may lead to loss of opportunities and may hamper our Company's future growth plans.

Our Company may not pursue its business strategy in future. Our Company may be subject to growth related risks including capacity constraints and pressure on internal systems and controls. Its inability to deal with this growth could have material adverse impact on its business, operations and prospects. In order to manage its current operations and any future growth effectively, our Company has to continue to implement and improve its operational, financial and management information systems and to retain its employees. There can be no assurance that it will be able to manage such growth effectively, that its management, personnel or systems will be adequate to support our Company's operations so that it will be

The insurance coverage taken by the Company may not be adequate to protect against certain business risks and this may have an adverse effect on the business operations.

The Company's insurance coverage is likely to cover all normal risks associated with the operation of the business but there can be no assurance that any claim under the insurance policies maintained by it will be honored fully or in part or on a timely basis. To the extent that the Company suffers loss or damage that is not covered by insurance or exceeds its insurance coverage, the Company's financial performance and cash flow may be adversely affected.

We require certain statutory and regulatory permits and approvals to operate our business. We are also required to renew certain permits and approvals from time to time. Similarly, the effective transfer and integration of the Demerged Undertaking may be subject to the receipt of various statutory and regulatory approvals and other third party consents. While we believe that we will be able to procure or renew such permits and approvals as and when required, there can be no assurance that the relevant authorities will issue any or all requisite permits or approvals in the time-frame anticipated by us.
