Thermax Group wins Rs. 250 crore order for a greenfield refinery in Latin America

Pune: June 25, 2021

Thermax Babcock and Wilcox Energy Solutions (TBWES), a wholly owned subsidiary of Thermax, has concluded a Rs. 250 crore order for a claus package and an oxidiser package in the sulphur recovery unit for a greenfield refinery in Latin America. The customer, a globally renowned refining company, is setting up a new 340 MBPD (Million Barrels Per Day) crude oil refining capacity to increase the production of high value distillates.

The export order includes two trains each of a claus package and an oxidiser package consisting of burner, furnace, waste heat boiler in completely modular construction. The modularisation solution from TBWES will benefit the customer de-risk their construction work and accelerate the commissioning time.

The scope of supply includes design, engineering, and manufacturing of the packages.

“TBWES was chosen as a successful partner in this international competitive bidding project owing to its proven product experience, compliance to global quality standards, manufacturing strength and modularised offerings,” says Ashish Bhandari, MD & CEO, Thermax.

About Thermax Limited: Thermax Limited, a leading energy and environment solutions provider, is one of the few companies in the world that offers integrated innovative solutions in the areas of heating, cooling, power, water and waste management, air pollution control and chemicals. Thermax has manufacturing facilities in India, Europe and Southeast Asia. The sustainable solutions Thermax develops for client companies are environment-friendly and enable efficient deployment of energy and water resources.
