

Maxtreat 2902M

General Statement

Maxtreat 2902M is a water treatment chemical mixture intended for industrial applications.

Chemical Identification

► Products Name

Maxtreat 2902M

► Chemical Identity

Mixture

Uses and Applications

Common uses of the product are industrial water treatment.

Physical / chemical properties

Property	Value
Physical State Appearance	Liquid
Water solubility	Miscible
pH	Not available
Color	Clear
Odor	Characteristic

Health Effects

The product is not classified and labeled according to the Globally Harmonized System (GHS).

Environmental Effects

Avoid subsoil penetration. Discharge into the environment must be avoided. Do not allow to enter sewers/ surface or ground water.

Exposure

► Human Health

The product is only used for industrial purposes; therefore, consumer exposure is not relevant and does not need to be assessed for this product. For worker, follow appropriate Risk Management Measures to control risk of exposure.

► Environment

No environmental impact

Risk Management Recommendations

All personnel should be adequately trained for general handling of chemicals. Wear appropriate PPEs. Ensure adequate ventilation & observe the usual precautions for handling chemicals. Handle in accordance with good industrial hygiene and safety practice. Smoking, eating and drinking should be prohibited in the application area. Keep container tightly sealed. Provide proper ventilation/exhaustion. Do not store near heat sources or expose to excessive temperatures. Keep away from food, drink and animal feeding stuffs. Keep receptacle tightly sealed. Wash hands & skin following contact. If the product gets into your eyes, rinse eyes thoroughly for 15 minutes with tap water and seek medical attention, consult the doctor immediately.

Accidental Release Measures

► Spill Containment

Avoid spills and prevent material from entering water bodies.

► Clean-up Procedure

Do not flush into surface area or sanitary sewer system, use absorbent like sand or absorbent materials, saw dust, waste cotton etc. to contain spill prevent material from entering soil and waterways. Dispose of the material collected according to regulations.

Regulatory Information/Classification and Labelling

► Regulatory Compliance

The product is not classified and labeled according to the Globally Harmonized System (GHS). This product is not REACH registered

Classification and Labelling

GHS/CLP Classification	Not Classified
Hazard Pictogram	Not Classified
Signal Word	Not applicable
Hazard Statement	Not applicable
Precautionary Statements	Wash hands thoroughly after handling. Do not touch eyes. Wear protective gloves/protective clothing/eye protection/face protection/hearing protection. IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Get emergency medical help.

Conclusion

Workers handling this product must use protective gear, and facilities must implement safety protocols to avoid accidents and appropriate Risk Management Measures should be selected and applied to control risk of exposure. Also, this product has no supported uses in direct consumer products.
